

# The Professional's Choice

Seen here the MV Classics team with a Jaguar 3.8 Mk2, which they maintain for a customer

## Jaguar 3.8 Mk2

Established for over 20 years, MV Classics are a leading restorer in Hampshire, having restored many concours winning Jaguars, Austin Healeys and many more.

MV Classics proprietor Lawrence Smith said for us at MV Classics, **Hammerite Waxoyl** is essential when it comes to preserving a Classic Cars long life after we have completed a restoration. We also recommend using Hammerite Under-Body Seal Schutz, which can be finished in any body colour without cracking.
