

The Owner's Choice

Seen here concurs winning Series 1 Land Rover, restored by owner Daryl Sharp from Hampshire

Land Rover Series 1

You don't need to be a professional to rust proof your Classic. Daryl spent countless hours restoring this 1957 Series 1 Land Rover, first of the 88" wheelbase Diesels.

So good was the restoration, it won best in class at the 60th Land Rover anniversary and many show events. Daryl wanted to preserve his pride and joy for future generations, so he chose **Hammerite Waxoyl** as the best product. Daryl also used the new Pressure Sprayer to inject Hammerite Waxoyl in all the hard to get at underbody and chassis sections.
